## AFRICA FORUM 2016

11-13 JULY 2016 | SOUTHERN SUN MAYFAIR HOTEL, NAIROBI, KENYA

## DISTRIBUTED ENERGY DEVELOPMENT WITH BIOGAS IN AFRICA

Being in the biogas industry is not easy. Unfortunately, when compared with wind and solar, bio-energy seems like a poorer stepchild that is often neglected in national policy and international financing. The potential for biogas energy is not often well understood and many feedstock owners think of it as a hassle or compliance issue rather than a source of income.

We hope to change that.

Throughout Asia, the Biogas Forum has galvanized attention for biogas development and helped educate hundreds of plantation owners, food-processing plant owners and many more to take a hard look at biogas, and helped them develop plans to commercialize their biogas plants. Experts have shared technological advances and know-how, and site owners themselves have cited case studies and operational experiences to help convince government, industry and stakeholders that biogas is a valuable energy source and should be utilized and developed to its full potential.

We were delighted to be in Africa.

With its many ecological and societal benefits, biogas development for energy and fertilizer has gained much attention all over Africa in recent years. Commercial scale biogas projects have sprung up all over countries in Africa as governments study the viability of biogas to replace traditional energy needs and deal with waste.

The Biogas Africa Forum 2016 was the first of its kind forum in Africa offering a comprehensive overview of the entire biogas value chain. We seek to educate farm owners, government officials and other stakeholders of the benefits and potential of biogas technology and give developers and entrepreneurs in Africa access to the latest technologies and know-how. The participants shared their common experiences, deliver solutions and overcome challenges and transfer competencies.

## DELEGATE LIST

Africa Biogas  
AKUT Partner  
Arid Lands Development Focus  
AVENAM LINKS INTL LTD  
Bioenergy International  
Biogas International Ltd  
Biogas Power Application Technologies Ltd.  
BIOGAS TAITA  
Biojoule Kenya Limited  
BIOTECH AND SERVICES  
Brands and Beyond  
Ce & Ce Virtual Solutions  
Clarke Energy  
Clean Cookstoves Association of Kenya  
CNBC Africa  
Dajopen Organic Fertiliser  
Damwe Energy Services  
ECOSAN  
Ener Build Limited  
Energy Regulatory Commission  
ENVIROSAN WRNATIONAL LTD.  
ERC

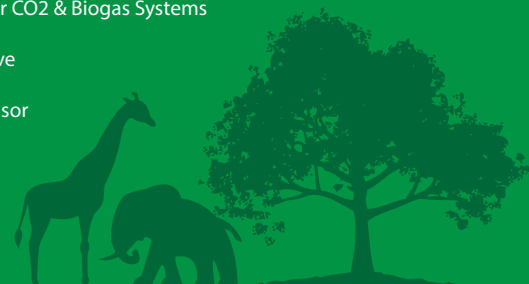

FIEKE GEERTS  
Galanaoil Kenya  
GE Power & Water  
German Biogas Association  
GIZ  
Gramax Investments  
Green Drive Limited  
Green Growth Innovations  
GULF AFRICAN PETROLEUM CORPORATION  
JOKIMA RENEWABLE SAVINGS ENERGY  
K24  
K24 TV  
KAM  
KENGREEN Energy  
Kenya Climate Innovation Centre  
Kenya Industrial Research and Development  
Institute  
KENYA.HUBEI ENTERPRISES DEVELOPMENT CO LTD

University Of Nairobi  
WEET Enterprises Ltd

## JOB TITLES

Administrator  
Advisor-Powering Agriculture  
Application Engineer  
Assistant Technical Officer (Energy Efficiency and Conservation)  
Biogas Consultant  
Biogas Technician  
Business Analyst  
Business Development Marketing Manager  
Business Reporter  
Business Unit Leader - Biogas  
CEO  
Chief Energizing Officer  
Chief Executive Officer  
Cice Chair-Energy  
Consultant International Affairs  
Director  
Editor-in-Chief  
Energy Consultant  
Engineer  
Extension Advisor  
Group Marketing & Compliance Manager  
Group Secretary  
Head of International Department  
Honorary Secretary

Lead Consultant  
LPG Manager  
Manager Operations  
Managing Director  
Master of Science  
MD/CEO  
Media  
Operation Manager  
Operations Supervisor  
Ph.D Candidate (Climate Change)  
Principal Renewable Energy Officer  
Project Development  
Project Manager  
Public-Private Dialogue (Sector Boards) officer  
Research & Development Office  
Research Scientist  
Research Scientist & Head of Energy Division  
Sales Area Manager CO2 & Biogas Systems  
Sales Manager  
Sales Representative  
Senior Advisor  
Senior Project Advisor  
Technical Officer
